# CONTAINER GROWN STOCK

## ONE-THIRD OF OUR CONTAINER GROWING AREA

All stock has been grown in the can and not merely established for a few weeks or months.

We are proud of our Container Growing Department. We invite you to inspect it anytime. No advance notice is necessary to pick up any of this stock. Dave Kocur will show you his department, take your order for later delivery, or load your truck on the spot.

Transportation arrangements can be made at reasonable charges for full loads, and cans work well with B & B stock on part loads.
